Good night.

Ji-Hyoung.

...

Ever since I came here, I've been sleeping on sofa of some sort.

I haven't slept on chairs since my uni days ...

Actually, I've had worse. I slept on ground for work.

So, I don't have a problem with this.

Zzz...

Why am I so useless everywhere?

At work ... even here ...

I feel sorry that I made him do this.

For now, just follow me like a puppy and do nothing ...

Your time will come but it is not now.

Auuwww, my body aches.

I think sofa was better ...

I couldn't take a shower, so it doesn't feel nice, either.

I am going to hit the public bath first.

Ji-Hyoung !

Did you sleep well ?

Huh?

You are up early ?

It's only 7 am.

I was concerned about you, so I woke up early to check you out.

Yeah ... ?

See you later.

Where are you going?

I can't attend any of today's classes due to council work.

All these need to be done by end of today.

I will call you later !

I guess it's not easy being in her position.

Anyway, how should I react when I run into Hye-Ri ?

Greet her as if nothing happened?

However ...

She skipped classes for a while ...
